### ENGINEERING CERTIFICATION

This statement is to certify that those sections of the 2009 Kent County Comprehensive Water and Sewerage Plan covering engineering aspects of water and sewer projects have been reviewed for adequacy by a registered professional engineer licensed in the State of Maryland. Kent County, the incorporated towns within Kent County, The Kent County Department of Water & Waste Water Services, The Kent County Department of Planning, Housing, and Zoning, The Kent County Department of Health, The Maryland Department of Planning, and The Maryland Department of the Environment have been consulted and have had the opportunity to review the submitted Plan. A Public Hearing was held on September 29, 2009. Comments provided by these entities as well as comments from the Public Hearing have been incorporated where appropriate.

RE: 2009 Water and Sewer Plan

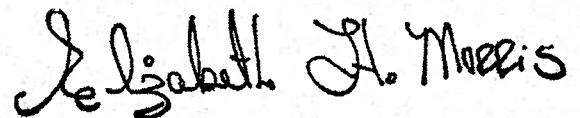

Dear Mr. Morris:

The Kent County Planning Commission and the Kent County Director of Planning, Housing, and Zoning reviewed the Water and Sewer Plan and determined that the Plan is consistent with the Kent County Comprehensive Plan and the Coastal Zone Management Program. The Commission and Director based their decision on a review for consistency in existing and planned water and sewer service areas with designated growth areas and consistency in policy statements.

We appreciate the opportunity to review the proposed draft Water and Sewer Plan. If you have any questions, please do not hesitate to contact us.

Sincerely,

The Kent County Planning Commission

Elizabeth H. Morris

Chairman

Gail Webb Owings  
Director of Planning, Housing, and Zoning
