R. CLAYTON MITCHELL JR. GOVERNMENT CENTER *400 HIGH STREET*CHESTERTOWN, MARYLAND 21620 TELEPHONE (410) 778-7478 FAX (410) 810-2947

October 26, 2017

To the Honorable Board of County Commissioners and The Citizens of Kent County, Maryland

Formal Transmittal of the Comprehensive Annual Financial Report (CAFR)

The audited Comprehensive Annual Financial Report (CAFR) of Kent County, Maryland (the County), prepared by the Office of Finance for the fiscal year ended June 30, 2017, is hereby submitted in compliance with State law which requires that all general-purpose governments issue a complete set of financial statements prepared according to accounting principles generally accepted in the United States of America (GAAP) and be audited by an independent, licensed, certified public accountant in accordance with auditing standards generally accepted in the United States of America (GAAS). For the fiscal year ended June 30, 2017, the County contracted with SB & Company, LLC of Hunt Valley, Maryland to audit the financial statements. The Report of Independent Public Accountants is included on pages 12-14. The annual report was prepared by the Kent County Office of Finance in cooperation with the finance departments of the County's discretely presented component units.

This report consists of management's representations concerning the finances of Kent County. Consequently, management assumes full responsibility for the completeness and reliability of the information contained in the report. To provide a reasonable basis for making these representations, management of Kent County has established a comprehensive framework of internal control that has been designed to both protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not exceed the anticipated benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Kent County's financial statements have been audited by SB & Company, LLC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures of the financial statements, assessing the accounting principles used and significant estimates made by managements, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that Kent County's financial statements for the fiscal year ended June 30, 2017, are fairly presented in conformity with GAAP in all material respects. The independent auditor's report is presented as the first element of the Financial Section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Kent County was formed in 1642 as the Isle and County of Kent by the Governor and Council. It is named for the County of Kent in England. The County is located on the Eastern Shore of Maryland. It is bordered to the north by Cecil County, to the east by the State of Delaware, to the south by Queen Anne's County, and to the west by the Chesapeake Bay. There is no direct access to the Western Shore of Maryland. The County occupies 414 square miles and serves a population of approximately 20,000 citizens. The County Commissioners of Kent County are empowered to levy a property tax on real properties located within its boundaries, as well as an income tax on citizens residing within the County.

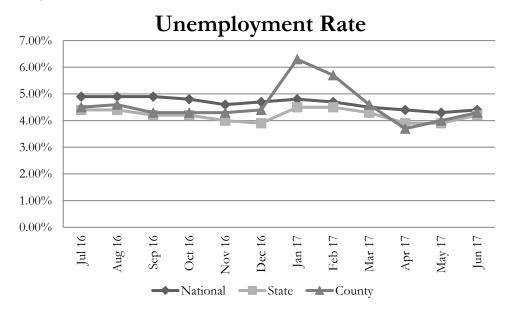

The County operates as a Maryland Code Home Rule County, which enables the Board of County Commissioners to exercise broad local legislative authority. Under code home rule, both legislative and executive functions of the County are vested in the three member Board of County Commissioners. All three members of board are elected at large and serve a four year term.

The County provides or funds (in whole or part) a full range of services including public safety (sheriff's office, volunteer fire and rescue services, emergency services, detention center, and animal control); construction and maintenance of county roads; solid waste; planning, housing and zoning; tourism and economic development; culture and recreation, education, libraries, and general administrative services. In addition, the County operates a water and wastewater utility, and a recreation facility.

The approved annual budget is prepared by fund, function (e.g. public safety), and department (e.g. emergency services). Department heads may make transfers between line items in their department; transfers must be ratified by the Board of County Commissioners. Budget to actual comparisons are provided in this report for individual governmental funds for which an appropriated annual budget has been adopted. The budget comparisons for the general fund are presented on pages 66 through 68 as part of the Required Supplementary Information subsection of this report.

Local Economy

The information presented in the financial statements is best understood when it is considered from the broader perspective of the specific environment within which Kent County operates. The chart below shows the unemployment rate in Kent County compared to the state wide and national unemployment rates. During the winter months, the County's unemployment rate is significantly higher than the State and National rates. This is most likely due to the seasonality of employment in the agricultural and maritime industries.

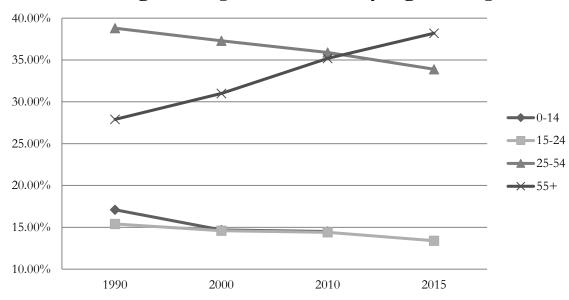

The local employment base is somewhat limited and centers on agriculture, tourism, manufacturing, construction, health services, and education. The largest employers in the County are Washington College and the Shore Regional Health Facility at Chestertown.

Property values throughout the county remain relatively constant. Fiscal year 2018 assessments are expected to show a very slight increase of .2% over fiscal year 2017. Projected changes in significant revenue sources are detailed in the Management's Discussion and Analysis on page 23.

The County's population has remained relatively constant, rising slightly from 19,197 in 2000 to 19,730 in 2016. The mix of the population by age, however, is shifting. As the following chart illustrates, the only segment of the population that is increasing, are residents over the age of 55. As this change in demographic continues, the County will be challenged to shift its services to meet the needs of its aging citizenry.

Change in Population Mix by Age Group

Median household incomes within the County are significantly lower than the state as a whole. According to census data, the County median income (2011-2015) was \$58,147, compared to the state median income of \$74,551. Additionally, 14.8% of the County's population is below poverty level compared to 9.7% of the State's population.

Major Initiatives

One of the primary priorities is to enhance the infrastructure needed to support new and existing business, particularly access to affordable, robust and high capacity internet access. This was the primary goal identified in the economic development plan. Ideally, this will expand the competitive capability of local businesses and provide more job opportunities for younger, middle-aged residents. Additionally, it will improve the county's ability to attract and retain newly retired residents who choose to live in Kent County. In fiscal year 2017, the County began a \$4,500,000 project to install 110 miles of dark fiber within the County. This project is expected to be completed in fiscal year 2018.

Another priority is education. As the County's population ages, school enrollment continues to decline. The historical school system structure consisted of small neighborhood schools, all of which were under capacity. This configuration has led to the County having one of the highest per pupil education costs in the state. At the conclusion of fiscal year 2017, the public school system closed two elementary schools, reducing the number of elementary schools in the County from five to three. Several years earlier, the school system consolidated the students of its' three middle schools into one central facility. The Board of Education is in the process of developing a Facility Strategic Plan for future facility usage and configuration. They formed a Strategic Planning Committee, engaged a consultant and held community meetings to facilitate the development of the plan which they anticipate will be completed in late fiscal year 2018.

Acknowledgements

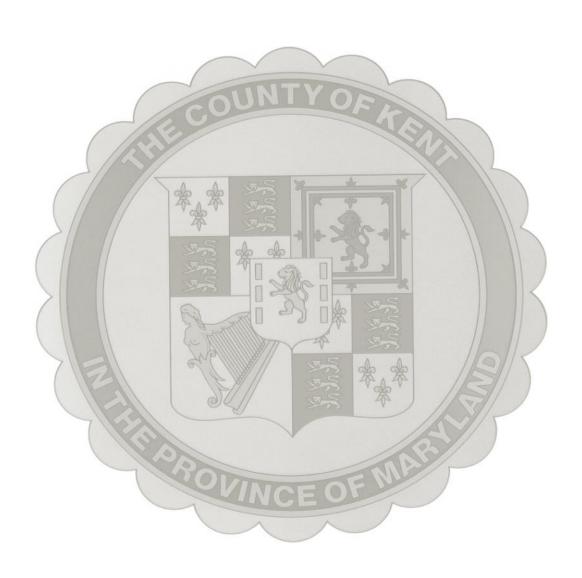

The preparation of this document would not have been possible without the skill, effort, and dedication of the entire staff of the Finance Office. We wish to thank all County departments for their assistance in providing the data necessary to prepare this report and special thanks to Bernadette Bowman for providing the photographs. Credit is also due to the Board of County Commissioners for their unfailing support and for maintaining the highest standards of professionalism in the management of the County's finances.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

The County Commissioners of Kent County, Maryland Chestertown, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County Commissioners of Kent County, Maryland (the County) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Board of Education of Kent County, Maryland. Those financial statements were audited by other auditors whose reports thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for those entities, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County Commissioners of Kent County, Maryland, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of funding progress, employer contributions, investment returns, and changes in the County's net OPEB liability and related ratios for other postemployment benefits, schedules of the County's proportionate share of the net pension liability and County contributions, and budgetary comparison information, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying combining and individual fund statements and introductory and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying combining and individual fund statements are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining and individual fund statements and budgetary comparison schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

S& + Company, If C

Hunt Valley, Maryland October 27, 2017

Management's Discussion and Analysis

Introduction

As management of Kent County, Maryland (the County), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 2-5 of this report.

Financial Highlights

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows at the close of fiscal year 2017 by \$60,056,202 (net position). This amount is net of a (\$4,738,324) unrestricted net position deficit. GASB 68 and debt issued to capital projects that are not associated with an asset on the County's financials contribute to this deficit.
- The County's total net position decreased by \$3,150,260.
- As of the close of fiscal year 2017, the County's governmental funds reported combined ending fund balances of \$10,391,736; a decrease of \$811,152 in comparison with the prior year. Approximately 51% of this amount (\$5,296,459) is available for spending at the County's discretion (*unassigned fund balance*).
- At the end of fiscal year 2017, the unrestricted fund balance (the total of the *committed, assigned,* and *unassigned* components of *fund balance*) for the general fund was \$9,066,832, or approximately 19% of total general fund expenditures.
- The County's government-wide long-term debt decreased by \$1,263,844 during fiscal year 2017, as detailed on page 22.

Overview of the Financial Statements

This discussion and analysis provided here is intended to serve as an introduction to the County's basic financial statements. The basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents financial information on all of the County's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods (i.e.: uncollected taxes and earned but unused vacation time).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, public works, health and social services, culture and recreation, community development, education, and others. The business-type activities of the County include water and wastewater services and bayside landing.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate school district and a legally separate library for which the County is financially accountable. Financial information for these component units are reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 26-27 of this report.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental* activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains nineteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the capital projects fund, which are considered to be major funds. Data from the other seventeen governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in the combining and individual fund statements and schedules section of this report.

The County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 28-31 of this report.

Proprietary Funds

The County maintains two enterprise funds, which are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its water and wastewater services and bayside landing operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water and wastewater services and bayside landing operations.

The basic proprietary fund financial statements can be found on pages 32-34 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reported in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The County maintains two different types of fiduciary funds. The County has one *Private-purpose trust fund* that is used to report resources held in trust for property owners involved in tax sale transactions. The *Agency fund* reports resources held by the

County in a custodial capacity for individuals, private organizations and other governments. The County has four agency funds: state and town tax collections, Millington public drainage association, inmate accounts, and motor vehicle administration.

The fiduciary fund financial statements can be found on pages 35-36 of this report.

Notes to the Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statements can be found on pages 37-63 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* and other supplementary information. The statement of agency fund assets and liabilities, general fund statement of revenues, expenditures, and changes in fund balance – budget and actual, combining balance sheet and combining statement of revenues, expenditures, and changes in fund balances for nonmajor governmental funds and for the family and community partnerships of Kent County fund, schedule of funding progress – other post-employment benefit trust fund, schedule of employer contributions-other post-employment trust fund, schedule of the county's proportionate share of the net pension liability, and schedule of county contributions are presented in this section.

Required supplementary information and other supplementary information can be found on pages 65-85 of this report.

Government-wide Overall Financial Analysis

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows by \$60,056,202, at the close of the most recent fiscal year.

| Total net position | \$ 32,747,074 | \$ 34,686,883 | \$ 27,309,128 | \$ 28,519,579 | \$ 60,056,202 | \$ 63,206,462 | |

By far the largest portion of the County's net position reflects its investment in capital assets (e.g. land, buildings, improvements, infrastructure, machinery and equipment), less any related outstanding debt that was used to acquire those assets. The County uses these capital assets to provide a variety of services to its citizens. Accordingly, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position, \$1,324,904 or 2%, represents resources that are subject to external restrictions on how they may be used. The majority of restricted net assets include funds for inventory, prepaid items, agricultural land preservation and reforestation and open space activities.

Unrestricted net position reflects a negative balance of \$4,738,324. GASB 68 and debt issued to capital projects that are not associated with an asset on the County's financials contribute to this deficit.

The County's overall net position decreased by \$3,150,260. The reasons for this overall decrease are discussed in the following sections for governmental activities and business-type activities.

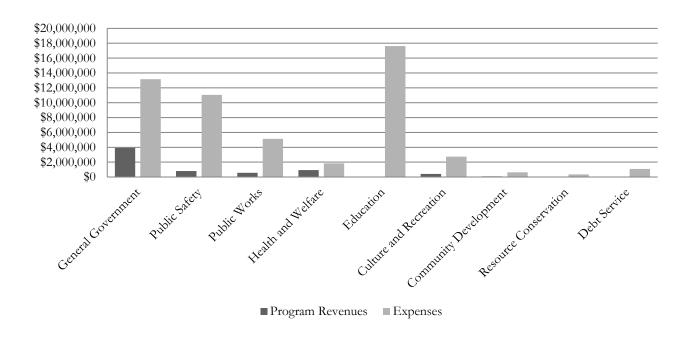

Governmental Activities

During the current fiscal year, the net position for governmental activities decreased \$1,939,809 from the prior fiscal year, which resulted in an ending balance of \$32,747,074. The decrease in the overall net position of governmental activities is primarily the result of an increase in the net pension liability.

Kent County, Maryland Changes in Net Position

Expenses and Program Revenues – Governmental Activities

Business-type Activities

For the County's business-type activities, the results for the current fiscal year were negative in that overall net position decreased to reach an ending balance of \$27,309,198. The total decrease in net position for business-type activities (water and wastewater services and bayside landing funds) was \$1,201,451 or 4.2% from the prior fiscal year. The decline is primarily attributable to depreciation expense that is not funded through the charges for service or the transfer from the County's general fund.

Financial Analysis of the Government Funds

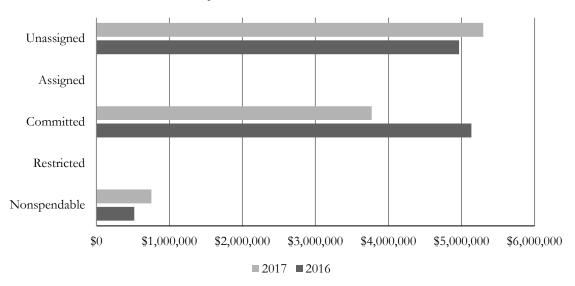

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's *governmental funds* is to provide information on the near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the County itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the Board of County Commissioners.

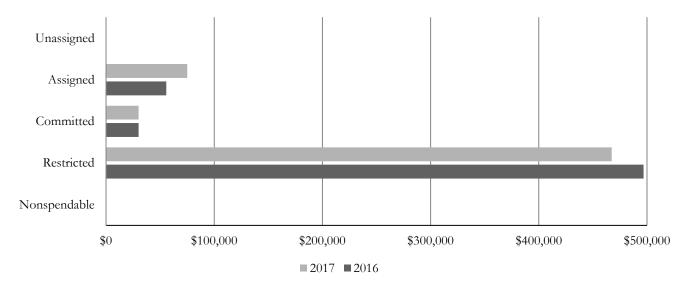

As of the end of the current fiscal year, the County's *governmental funds* reported combined fund balances of \$10,391,736, a decrease of \$811,152 in comparison with the prior year. Approximately 51% of this amount (\$5,296,459) constitutes *unassigned fund balance*, which is available for spending at the County's discretion. The remainder of the fund balance is either *nonspendable*, *restricted*, *committed*, *or assigned* to indicate that it is 1) not in spendable form (\$752,291), 2) restricted for particular purposes (\$467,438), 3) committed for particular purposes (\$3,800,548) or 4) assigned for particular purposes (\$75,000).

General Fund - Components of Fund Balance June 30, 2017 and 2016

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the general fund was \$5,296,459, while the total fund balance was \$9,819,123. As a measure of the general fund's liquidity, it may be useful to compare both the unassigned fund balance and total general fund balance to total general fund expenditures. Unassigned fund balance represents approximately 12% of total expenditures, while total fund balance represents approximately 23% of that same amount.

Other Governmental Funds - Components of Fund Balance June 30, 2017 and 2016

The fund balance of the County's general fund decreased by \$800,984. This was primarily due to the funding of capital projects.

The County's other major governmental fund, the capital projects fund, had a fund balance of \$40,000 which remains unchanged from last year. This reflects funding being carried over into subsequent fiscal years for technology upgrades.

Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The net position of the County's major enterprise fund (water and wastewater services) at the end of the year was \$25,844,866. The total decrease in net position was \$1,201,082. As noted earlier in the discussion of business-type activities, the decrease for the water and wastewater net position is primarily attributable to depreciation expense that is not funded through the charges for service or the transfer from the County's general fund.

General Fund Budgetary Highlights

Original budget compared to final budget

The original general fund expenditure budget of \$51,209,953 was amended by (\$1,426,551) to a final general fund expenditure budget of \$49,783,402. The major amendment to the budget was:

• Transfers to the capital projects fund were decreased by \$1,565,000 due to the delay of the broadband expansion and Nicholson landfill remediation projects into fiscal year 2018.

Final budget compared to actual results.

Actual expenditures for the year were \$2,373,556 less than estimated. The most significant differences occurred in the following areas:

- Public safety costs were \$640,036 less than anticipated. The sheriff's office, detention center, communications division and emergency medical services all had savings in salary and benefits due to staff turnover. Fuel and prisoner medical and food costs were also lower than anticipated.
- General government spending was \$470,461 under estimates. The largest savings were experienced in the building maintenance, elections, planning and zoning and finance departments.
- Miscellaneous spending was \$393,516 less than anticipated. The health insurance pool refund was larger than expected and \$279,523 of contingency funds were not utilized.
- Public works spending was \$391,960 under budget for the year. Position turnover, snow removal and low fuel prices contributed to the majority of the savings.
- Parks and recreation spending was \$171,867 less than estimated. Turnover and position vacancies contributed to the majority of the savings.

Capital Assets and Debt Administration

Capital Assets

The County's investment in capital assets for its governmental and business-type activities as of June 30, 2017, amounts to \$85,812,966 (net of accumulated depreciation). This investment in capital assets includes land, buildings, machinery, equipment, vehicles, park facilities, roads, highways, bridges, and water treatment and distribution plants. The total decrease in capital assets for the current fiscal year was approximately 2.2%.

Kent County, Maryland, Capital Assets (net of depreciation)

Major capital asset events during the current fiscal year included the following:

The County acquired \$610,000 of additional governmental assets which included a dump truck, v-plow, field groomer and holding cell (\$159,000) for the highway and recreation departments and the detention cent, vehicles (\$134,500) for the sheriff's office, commissioner's office and recreation department, a computer upgrade and air conditioning unit (\$155,600) for information systems, replaced the Fairlee Creek landing pier (\$58,000), all of which was grant funded by the Department of Natural Resources and extended the multi-purpose athletic fields at Worton Park (\$58,000) 90% of which was also grant funded by the Department of Natural Resources. Grant funds were also used to purchase a fingerprint scanner, data extractor and covert camera system (\$44,500) for the sheriff's office.

Additional information on Kent County's capital assets can be found on pages 49-51 of this report.

Long-term Debt

At the end of the current fiscal year, the County had total debt outstanding of \$23,023,006. The remainder of the County's long-term obligations are capital leases.

Kent County, Maryland's Outstanding Debt

| | Governmental Activities | | Business-type Activities | | | Total | | | | |
|--------------------------|-------------------------|------------|--------------------------|------------------|----|------------|---------|--------|----|------------|
| | 20 |)17 | 2016 | 2017 | | 2016 | 20 | 17 | | 2016 |

| Capital Leases | 1,4 | 196,967 | 1,772,290 | - | | - | 1,4 | 96,967 | | 1,772,290 |
| Total | \$ 10,5 | 557,964 \$ | 11,821,808 | \$ 13,962,009 | \$ | 12,802,590 | \$ 24,5 | 19,973 | \$ | 24,624,398 |

During the current fiscal year, the County's total debt decreased by \$104,425. The County's significant debt activities included:

- \$1,263,844 of governmental activities debt was retired.
- The water and wastewater services enterprise fund borrowing totaled \$1,639,000 to assist with the upgrading of Galena's wastewater treatment plant and add the Galena collection system, as well as to extend the Delta Heights water system.
- Water and wastewater services retired \$479,581 of its current outstanding debt.

The County's debt policy limits the issuance of debt to under \$20,000,000 in any single year. This year the County did not issue any new debt.

Additional information on Kent County's long term debt can be found on pages 57-61 of this report.

Economic Factors and Next Year's Budgets and Rates

The following economic factors currently affect the County and were considered in developing the 2018 fiscal year budget:

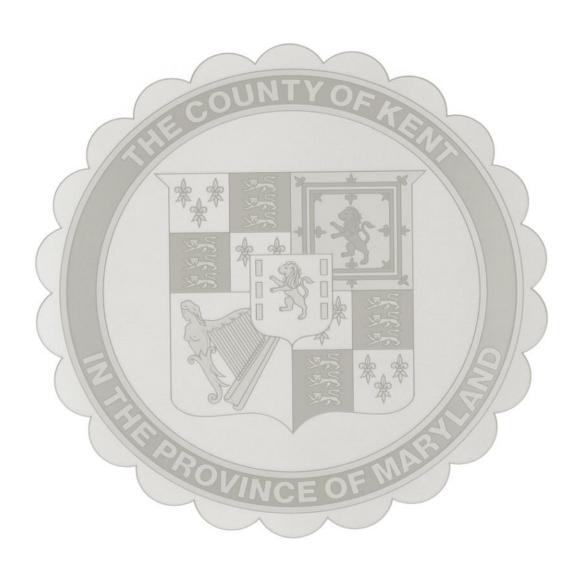

- Revenues are expected to remain relatively constant in fiscal year 2018.
- The County will use \$3,770,000 of fund balance resources in fiscal year 2018 for capital projects and equipment needs. Capital projects include the broadband expansion project, library renovations, public landings repairs, and landfill remediation.
- The fiscal year 2018 property tax rate remains at \$1.022 per \$100 of assessed property value.
- The fiscal year 2018 income tax rate remains at 2.85%.

Request for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

The County Commissioners of Kent County, Maryland Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2017

Amounts reported for governmental activities in the statement of activities (page 27) are different because:

| Net change in fund balances - total governmental funds (page 30) | | \$ (811,152) |
|---|---|-------------------|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense: Capital outlay Depreciation expense | \$ 456,535 (1,645,984) | (1,189,449) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds: Taxes | \$ 246,097 | 246,097 |
| The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities: Principal repayments: Capital leases General obligations bond payable | \$ 275,323 988,521 | 1,263,844 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds: Accrued landfill liability Accrued interest payable Net other post-employment benefits obligation Net pension liability Accrued compensated absences | \$ 132,300 8,358 (789,000) (1,795,159) 62,803 | (2,380,698) |
| Deferred outflow of financial resources represents consumption of net position that applies to a future period and therefore are not reported in the funds: Change in assumptions in net pension liability Net difference between projected and actual earnings on plan investments Change in pension contributions | \$ (122,407) 1,117,799 21,200 | 1,016,592 |
| Deferred inflow of financial resources represents an acquisition of net position that applies to a future period and therefore are not reported in the funds: Difference between actual and expected experience | \$ (85,043) | (85,043) |
| Change in net position of governmental activities | | \$ (1,939,809) |

The notes to financial statements are an integral part of this statement.

The County Commissioners of Kent County, Maryland Notes to Basic Financial Statements For the Fiscal Year Ended June 30, 2017

I. Summary of Significant Accounting Policies

A. Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

B. Reporting entity

Kent County, Maryland (the County) was founded in 1642, the second civil division in the province of Maryland. The County is governed by three commissioners who are elected at large to serve four-year terms. This board assumes responsibilities conferred upon them by the Maryland General Assembly and provides the following services: public safety, public works, health and social services, sanitation, recreation and culture, education, economic development, community development and general administrative services. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the County.

Discretely presented component units. The Board of Education of Kent County, which operates all public schools (grades Pre-K through 12) within the County, is a component unit of Kent County, Maryland by virtue of the Board's fiscal dependency on the County through the County's responsibility for levying taxes, issuing debt, and its approval of the Board's budget. The County Board of Education's governing board is elected by the citizens of Kent County. The component unit has no taxing authority of its own.

The Kent County Public Library is a component unit of Kent County, Maryland by virtue of the Library's fiscal dependency on the County. The County levies taxes and appoints members to the Library Board of Trustees from nominations submitted by the remaining members of that board. The Library Board of Trustees governs the Library.

Separately issued financial statements of the individual component units can be obtained from their respective administrative offices listed below:

Board of Education of Kent County, Maryland 5608 Boundary Avenue Rock Hall, Maryland 21661 **Kent County Public Library** 408 High Street Chestertown, MD 21620

Joint Venture. The Midshore Regional Landfill is a joint venture with Talbot, Caroline, and Queen Anne's counties. Disclosure of the County's participation in this joint venture is presented in Note III. P.

Separately issued financial statements can be obtained from the joint ventures' administrative office listed below:

Maryland Environmental Service 259 Najoles Road Millersville, MD 21108

C. Basis of presentation – government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while

business-type activities incorporate data from the County's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the County's water and wastewater functions and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

D. Basis of presentation – fund financial statements

The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

The *general fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The *capital projects fund* accounts for the acquisition and construction of the County's major capital facilities, other than those financed by proprietary funds.

The government reports the following major enterprise funds:

The *water and wastewater services fund* accounts for the activities related to operating the sewage treatment plants, sewage pumping stations, and the water distribution systems throughout the County.

Additionally, the County reports the following fund types:

The *private-purpose trust fund* accounts for monies received from tax sale transactions on behalf of property owners.

The *agency fund* accounts for inmate accounts at the detention center, vehicle registration charges collected on behalf of the motor vehicle administration, special assessment charges collected on behalf of the Millington Drainage Association, and property taxes collected on behalf of other governments.

During the course of operations, the County has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and enterprise funds) are eliminated so that only the net amount is included as internal balances in the enterprise funds) are eliminated so that only the net amount is included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis* of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, other local taxes, state shared taxes, licenses, fines and forfeitures, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the County.

The proprietary and private-purpose trust funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. The agency fund has no measurement focus but utilizes the *accrual basis of accounting* for reporting its assets and liabilities.

F. Budgetary information

1. Budgetary basis of accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund, enterprise funds, and capital projects fund. The capital projects fund is appropriated on a project-length basis. Special revenue funds do not have appropriated budgets since other means control the use of these resources (e.g., grant awards and endowment requirements) and sometimes span a period of more than one fiscal year.

The appropriated budget is prepared by fund, function, and department. The County's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the county commissioners. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

G. Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balance

1. Cash and cash equivalents

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

2. Investments

State regulations authorize the County to invest in: U.S. treasury obligations, U.S. government agency and instrumentality obligations, repurchase agreements (collateralized), certificates of deposit, bankers' acceptances, commercial paper, money market mutual funds and the Maryland Local Government Investment Pool.

The Maryland Local Government Investment Pool (MLGIP) was created by the state legislature through Section 22G of Article 94 of the Annotated Code of Maryland and is under the supervision of the state treasurer. The pool has an AAAm Standards and Poor's rating.

Investments for the County are reported at fair value (generally based on quoted market prices) except for the position in the Maryland Local Government Investment Pool which is reported at the net asset value per share. For the year ended June 30, 2017, the County did not have any investments.

3. Inventories and prepaid items

Inventories are valued at cost using the first-in/first-out (FIFO) method and consist of expendable supplies and repair items. The cost of such inventories is recorded as expenditures/expenses when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

4. Capital assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the County chose to include all such items regardless of their acquisition date or amount. The County was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the County constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their acquisition value at the date of donation.

Interest incurred during the construction phase of capital assets of enterprise funds is included as part of the capitalized value of the assets constructed. The amount of interest capitalized depends on the specific circumstances. This year no tax-exempt bond anticipation notes (BANS) were issued, consequently, no interest was capitalized.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

| Capital asset classes | Lives |
|-------------------------------|-------|
| Buildings | 50 |
| Improvements | 20 |
| Infrastructure | 50 |
| Machinery and equipment | 7-20 |
| Office furniture and fixtures | 7 |
| Automobiles and trucks | 10 |

5. Deferred outflows/inflows of resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The County reports a deferred outflow of resources for the change in assumptions in net pension liability and board pension contributions subsequent to the measurement date.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County reports a deferred inflow of resources for the net difference between projected and actual earnings on pension plan investments. The County also reports the item, *unavailable revenue*, reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from income taxes and property taxes. The amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

6. Net position flow assumption

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

7. Fund balance flow assumptions

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

8. Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The County reports the following fund balances in governmental activities:

Nonspendable – Amounts that cannot be spent either because they are in a nonspendable form or because they are

legally or contractually required to be maintained intact. The County reported the following nonspendable fund balances:

| | Fund | |
|--------------|---------|--------------------------------|
| Fund | Balance | Nonspendable Category |
| General Fund | · · | Inventory Prepaid Expenditures |

<u>Restricted</u> – Amounts that can only be spent for specific purposes because of enabling legislation, constitutional provisions or externally imposed conditions by grantors, creditors or contributors. The County reported the following restricted fund balances:

| | Fund | |
|--------------------------------|---------------|--|
| Fund | Balance | Restricted by |
| | | |
| Special Revenue Fund | | |
| Agricultural Land Preservation | \$ 150,659 | Tax Property Article 13-306 and contributors |
| Reforestation & Open Space | 196,043 | Natural Resources Article 5-1610 |
| Inmate Welfare | 59,348 | Correctional Services Article 10-502 |
| Law Library | 41,044 | Courts and Judicial Proceedings Article 13-501 |
| Regional Family Services | 591 | Courts and Judicial Proceedings Article 7-202 |
| Kent County Drug Task Force | 14,606 | Kent County Drug Task Force Forfeiture Agreement |
| Sheriff's Forfeiture | 5,147 | Federal Forfeiture Regulations |

<u>Committed</u> – Amounts that can be used only for specific purposes are determined by formal action (adoption or amendment) by the Board of County Commissioners who are the highest level of decision making authority. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation. The County reported the following committed fund balances:

| | Fund | |
|--------------------------------------|--------------|--------------------------------|
| Fund | Balance | Committed by |
| General Fund Special Revenue Fund | \$ 3,770,373 | Kent County Budget Document |
| Reforestation & Open Space | 30,175 | Kent County Land Use Ordinance |

Assigned – Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as committed. The Board of County Commissioners may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. The County reported the following assigned fund balances:

| | Fund | |
|-------------------------|--------------|-----------------------------|
| Fund | Balance | Assigned by |
| | | |
| Special Revenue Fund | | |
| Sheriff Forfeitures | \$ 17,296 | Kent County Budget Document |
| Special Events Overtime | 2,587 | Kent County Budget Document |
| Shop with a Cop | 708 | Kent County Budget Document |
| Platform Tennis | 1,884 | Kent County Budget Document |
| Kent Family Center | 672 | Kent County Budget Document |
| Post Prom | 1,398 | Kent County Budget Document |
| Weed Control | 10,455 | Kent County Budget Document |
| Capital Projects Fund | 40,000 | Kent County Budget Document |
| - | 40 | |

<u>Unassigned</u> – Amounts that are not included in other fund balance classifications. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

H. Revenues and expenditures/expenses

1. Program revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

2. Property taxes

Property taxes attach as an enforceable lien on real property and are levied as of July 1st. Payments are due by September 30th for all non-principal residences. Beginning October 1st, interest is charged each month on taxes that remain unpaid. For principal residences and small business with property tax liabilities of less than \$100,000, a two part installment plan is offered. The first installment is due by September 30th. Beginning October 1st, interest is charged on the amount of the first installment only. The second installment is due by December 31st. Beginning January 1st, interest is charged on all outstanding balances. A final billing (mailed on January 1) reflects any adjustments (i.e. new construction) to the current year's actual levy. Beginning April 1st, interest is charged each month on taxes that remain unpaid. Property taxes are levied at rates enacted by the Board of County Commissioners in the annual budget on the assessed value as determined by the Maryland Department of Assessments and Taxation. The tax rate for the fiscal year ended June 30, 2017 was \$1.022 per \$100 of full assessed value.

3. Compensated absences

Primary Government

Vacation/ Compensatory Leave Time. The County's policy permits employees to accumulate earned but unused vacation and compensatory leave time benefits, which are eligible for payment upon separation from County service. The liability for such leave is reported as incurred in the government-wide and proprietary fund financial statements. A liability for those amounts is recorded in the governmental funds only if the liability has matured as a result of employee resignations or retirements. The liability for compensated absences includes salary-related benefits, where applicable. As of June 30, 2017, a total of \$906,289 in unused vacation and compensatory leave time has been recorded as compensated absences payable on the Statement of Net Position.

Sick Leave. Accumulated sick leave lapses when employees leave the employ of the County and, upon separation from service, no monetary obligation exists.

Component Units

Board of Education

Sick Leave. As of June 30, 2017, the value of accumulated unused sick leave which will be used has not been determined. It is not practical to estimate the portion of such values, which will ultimately be paid because payment is contingent upon employees' future illnesses or retirement. The Board expects its commitment to provide sick leave to be met during the normal course of activities over the working lives of its present employees. Any accumulated unused sick leave at retirement will ultimately be taken into consideration and paid through retirement benefits by the State of Maryland.

Vacation. Twelve-month employees earn annual leave at varying rates dependent upon position and length of service. Annual leave generally must be taken by June 30 each year. For support staff, up to 15 days may be transferred to the next fiscal year. For administrative staff, up to three days may be transferred to the first week of July, and they can contribute 10 unused days to their 403B plans at the end of the fiscal year.

As of June 30, 2017, a total of \$28,720 in unused annual leave is available, which has been recorded as compensated absences payable in the Statement of Net Position.

Expenditures in the statement of revenues and expenditures for such items are the amounts accrued during the year that normally would be liquidated with expendable available financial resources. All accrued compensated absences are recorded in the government-wide financial statements.

Public Library

The Library accrues a liability for certain compensated absences that employees have earned but have not yet been paid. The Library estimates the portion to be used within the current fiscal year, and this portion is treated as a current liability in the general fund balance sheet. Expenditures in the statement of revenues and expenditures for such items are the amounts accrued during the year that normally would be liquidated with expendable available financial resources. All accrued compensated absences are recorded in the government-wide financial statement. The total liability of compensated absences as of June 30, 2017, was \$9,862.

4. Proprietary funds operating and nonoperating revenues and expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and wastewater services and bayside landing funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

I. Implementation of new accounting principles

The County adopted Governmental Accounting Standard Board (GASB) Statement No. 73, entitled Accounting and Financial Reporting for Pensions and Related Assets That are Not within the Scope of GASB 68, and Amendments to certain Provisions of GASB Statements 67 and 68, GASB Statement No. 74, entitled Financial Reporting For Postemployment Benefit Plans Other Than Pension Plans, GASB Statement No. 77, entitled Tax Abatement Disclosures, GASB Statement No. 78 entitled Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans, GASB Statement No. 80, entitled Blending Requirements for Certain Component Units- an amendment of GASB Statement No. 14 and GASB Statement No. 82, entitled Pension Issues – an amendment of GASB Statements No. 67, No. 68 and No. 73. Adoption of these statements did not have a material effect on the financial statements.

During the year ended June 30, 2017, GASB issued Statement No. 75 entitled, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions; GASB Statement No. 81 Irrevocable Split-Interest Agreements; GASB Statement No. 84, Fiduciary Activities, GASB Statement No. 85, Omnibus 2017, and GASB Statement No. 87, Leases.

The County has begun analyzing the effects of these pronouncements and plans to implement them by their respective effective dates. While all GASB Statements issued are being reviewed, Statement No. 75 is expected to have a material effect on the County's financial statements once implemented.

II. Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between the governmental fund balance sheet and the governmentwide statement of net position

The governmental fund balance sheet includes reconciliation between *fund balance - total governmental funds* and *net position - governmental activities* as reported in the government-wide statement of net position. Reconciling items include the following:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.

Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds.

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and, therefore, are not reported in the funds.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and, therefore, are not reported in the funds.

Details of these reconciling transactions can be found on page 29.

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between *net changes in fund balances - total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. Reconciling items include the following:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense.

The net effect of various miscellaneous transactions involving capital assets (i.e., sales and donations) is to increase net position.

The issuance of long-term debt (i.e., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statements of activities.

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and, therefore, are not reported in the funds.

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and, therefore, are not reported in the funds.

Detail of these reconciling transactions can be found on page 31.

III. Detailed notes on all activities and funds

A. Cash deposits with financial institutions

Primary Government

Custodial credit risk-deposits. In the case of deposits, this is the risk that in the event of a bank failure, the County's deposits may not be returned to it. The County maintains the following accounts:

| | Ba | ank Balance |
|--|----|-------------|
| Financial Institution | Ju | ne 30, 2017 |
| Chesapeake Bank and Trust (main operating account) | \$ | 6,373,013 |
| PNC Bank (payroll processing) | | 12,269 |
| Chesapeake Bank and Trust (transitional insurance program) | | 251 |

None of the County's deposits are exposed to custodial credit risk. The deposits at Chesapeake Bank and Trust are collateralized with securities held by the pledging or financial institution's trust department or agent in the County's name and the deposits at PNC Bank are insured by the Federal Deposit Insurance Corporation. At the end of each day, the deposits at Chesapeake Bank and Trust are invested in an overnight sweep account.

Interest rate risk. The County manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to six months or less.

Credit risk. As of June 30, 2017, the County was not exposed to credit risk.

Concentration of credit risk. The County's investment policy limits investment in any one financial institution and establishes the following limits: primary government dealers – 60%, commercial banks/certificates of deposit – 40%, money market treasury funds – 40%, local government investment pools – 70%.

Custodial credit risk-investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2017, the County was not exposed to any custodial credit risk.

Investment Policy. The County has adopted an investment policy that is designed to provide maximum safety and liquidity of funds while providing a reasonable rate of return. Permissible investments include U.S. Treasury Obligations, U.S. Government Agency and U.S. Government-Sponsored Enterprises, repurchase agreements, collateralized certificates of deposit, the Maryland Local Government Investment Pool, and mutual funds dealing in government securities. The County's policy and State law require that the underlying collateral for repurchase agreements and certificates of deposit must have a market value of at least 102% of the investment's cost plus accrued interest.

Component Units

Board of Education

As of June 30, 2017, the reported amount of the Board's deposits was \$4,189,069, and the bank balance was \$4,493,579. Of the total deposits, \$3,967,396 was not covered by FDIC but was collateralized by securities held by the pledging financial institution's trust department or agent, but not in the Board's name. The value of the pledged securities exceeded the amount of deposits in excess of coverage by the FDIC.

Public Library

None of the Library's deposits are exposed to custodial credit risk. The Library maintains one bank account at PNC Bank. As of June 30, 2017, the carrying amount of the Library's deposits was \$265,066 and the bank balance was \$286,008, \$250,000 of which was insured by the Federal Deposit Insurance Corporation.

B. Receivables

Below is the detail of receivables for the governmental and business-type activities:

| | | | | Capital | | Go | Total | Вι | | | |
|---|----|-------------|-------------|-------------|-----------------|----|-----------|----|--------------|----------|--------------------|
| Receivables | Ge | eneral Fund | Pro | ojects Fund | Funds | | Funds | | Funds | | Total |

| Tourism grant | | - | | - | 59,434 | | 59,434 | | - | | 59,434 |
| Regional family services | | - | | _ | 42,501 | | 42,501 | | - | | 42,501 |
| 911 fees | | 30,375 | | - | _ | | 30,375 | | _ | | 30,375 |
| Homeland security | | - | | _ | 34,641 | | 34,641 | | - | | 34,641 |
| Other | | 101,881 | | - | 52,028 | | 153,909 | | 86,026 | | 239,935 |
| | \$ | 2,751,625 | \$ | 12,333 | \$ 4,153,081 | \$ | 6,917,039 | \$ | 355,464 | \$ | 7,272,503 |

The County does not have any allowance for doubtful accounts related to the above receivables. The County expects to receive all of the receivables listed above within one year except for the following:

The State has estimated that they are holding \$2,387,051 of the County's income tax revenue for tax years 2016 and prior. It will take several years for the State to remit these monies to the County, however, the State estimates their liability to the County and the County reports this receivable in accordance with GAAP.

C. Capital assets

Primary Government

Capital assets activity for the year ended June 30, 2017, was as follows:

| Capital assets activity for the year ended June 30, | Balance | Balance | | |

| Total accrued liabilities | \$ | 684,202 | \$ | 43,985 | \$ | 728,187 | | |

E. Pension obligations

Primary Government

The County participates in three cost-sharing multiple-employer defined benefit pension plans administered by the State of Maryland. All three plans provide retirement, disability, and death benefits to plan members and their beneficiaries. For the year ended June 30, 2017, the County recognized aggregated pension expense of \$1,299,976 for all three pension systems.

Benefits under the State Retirement and Pension System are established under Title 21, and the Law Enforcement Officers' Pension System under Title 26, of the Annotated Code of Maryland – State Personnel and Pensions.

The Maryland State Retirement and Pension System issues a comprehensive annual financial report that includes disclosures regarding: actuarial value of assets, total actuarial accrued liability, unfunded actuarial accrued liability, if any, and funded liability ratio. This report can be obtained from the agency's office as follows:

Maryland State Retirement and Pension Systems

120 East Baltimore Street Baltimore, Maryland 21201

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Alternate Contributory Pension System, the Reformed Contributory Pension System and the Law Enforcement Officer's Pension System (the System) and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Plan Descriptions

Alternate Contributory Pension System – This plan covers employees hired after June 30, 2002, plus eligible employees with service as of July 1, 2002. Members may retire with full benefits after completing 30 years of eligible service regardless of age or at age 62 or older with specified years of eligible service. On retirement from service, a member shall receive

an annual service retirement allowance based on the member's average final compensation and years of creditable service. A member may retire with reduced benefits after attaining age 55 and completing fifteen years of eligible service. A member terminating employment before attaining retirement age, but after completing five years of eligible service, becomes eligible for a vested retirement allowance at age 62.

Reformed Contributory Pension System – This plan covers employees hired after June 30, 2011. Members may retire with full benefits when their years of eligible service and age equal 90 or at age 65 or older with 10 years of eligible service. On retirement from service, a member shall receive an annual service retirement allowance based on the member's average final compensation and years of creditable service. A member may retire with reduced benefits after attaining age 60 and completing fifteen years of eligible service. A member terminating employment before attaining retirement age, but after completing ten years of eligible service, becomes eligible for a vested retirement allowance at age 65.

Law Enforcement Officer's Pension System (LEOPS) – This plan covers law enforcement employees hired after June 30, 2002, plus eligible employees with service as of July 1, 2002. Members may retire after 25 years of service or at age 50 with at least 5 years of service. A member who joined prior to July 1, 2012 is eligible for vesting after 5 years of service; however, the contribution must be left in the Retirement System in order to qualify for benefits at age 50. A member who joined after July 1, 2012 is eligible for vesting after 10 years of service; however, the contribution must be left in the Retirement System in order to qualify for benefits at age 65.

Funding Policy

Obligations to contribute to the plan were established under Title 21 and Title 26 of the Annotated Code of Maryland – State Personnel and Pensions. Members of all three pension plans contributed 7% of their gross regular employee compensation during fiscal year 2017.

Required contributions under the plans, which are not funded by employee contributions, are funded entirely by the County. Contributions by the County to both State plans take place during the fiscal year and are based upon salaries for the preceding fiscal year. The County contribution for the year ending June 30, 2017 is based on salaries for the year ending June 30, 2016. The contribution requirements of plan members of the reporting entity are established and may be amended by the Maryland State Pension System Board of Trustees. The contributions for the fiscal years ending June 30th were equal to the actuarially determined amounts as follows:

| | | Fiscal | | Fiscal | | Fiscal |
|---|------------|---------------|----|------------|-----|------------|
| | Year Ended | | Ye | ar Ended | Ye | ar Ended |
| | _ Jun | June 30, 2017 | | e 30, 2016 | Jun | e 30, 2015 |
| Alternate/Reformed Contributory Pension Systems | \$ | 679,403 | \$ | 640,296 | \$ | 703,480 |
| LEOPS | | 289,985 | | 307,892 | | 280,083 |

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2017, the County reported a liability of \$11,324,075 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participants members actuarially determined. As of June 30, 2016, the County's proportion was 0.048%.

For the year ended June 30, 2017, the County recognized pension expenses of \$1,299,976. As of June 30, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | red Outflows of Resources | Deferred Inflows of Resources | | |
|-------------------------------------|------------------------------|----------------------------------|---------|--|
| Changes in assumptions | \$ 435,614 | \$ | - | |
| County contribution subsequent to | | | | |
| the measurement date | 969,388 | | - | |
| Net difference between projected vs | | | | |
| actual investment earnings | 1,344,030 | | - | |
| Difference between actual and | | | | |
| expected experience | | | 280,188 | |
| Total | \$ 2,749,032 | \$ | 280,188 | |

Amounts reported as deferred outflows of resources and deferred inflows of resources are related to pensions, which will be recognized in pension expense as follows:

| \$ 344,850 |
|---------------|
| 344,850 |
| 522,198 |
| 312,373 |
| (24,815) |
| \$ |

Actuarial Assumptions - The key actuarial assumptions used to perform the June 30, 2017, pension liability calculation are as follows:

| Actuarial | Entry age normal |
|---------------------------|-------------------------------------|
| Amortization method | Level percentage of payroll, closed |
| Inflation | 2.7% general, 3.2% wage |
| Salary increases | 3.45% to 10.7%, including inflation |
| Investment rate of return | 7.55% |

Mortality rates were based on the RP-2014 Mortality Table with generational mortality projections using scale MP-2014, calibrated to MSRPS experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the System's Board after considering input from the System's investment consultant(s) and actuary(s). For each major asset class that is included in the System's target asset allocation, the best estimates are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|--------------------|-------------------|---|
| | | |
| Public Equity | 35% | 6.30% |
| Fixed Income | 10% | 0.60% |
| Credit Opportunity | 10% | 3.20% |
| Real Return | 14% | 1.80% |
| Absolute Return | 10% | 4.20% |
| Private Equity | 10% | 7.20% |
| Real Estate | 10% | 4.40% |
| Cash | 1% | 0.00% |
| Total | 100% | _ |
| | | = |

Discount Rate

The discount rate used to measure the total pension liability was 7.55%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.55%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.55%) or 1 percentage point higher (8.55%) than the current rate:

| | 1% Decrease | | D | 1 | | % Increase | |
|---|-------------|------------|----|------------|---|------------|-----------|
| | | (6.55%) | | (7.55%) | _ | | (8.55%) |
| County's proportionate share of the net pension liability | \$ | 15,554,607 | \$ | 11,324,075 | | \$ | 7,803,649 |

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued System's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016. This can be found at www.sra.state.md.us.

F. Other post-employment benefit (OPEB) obligations

Primary Government

<u>Plan Description</u> – The County's Other Post-Employment Benefit Plan (OPEB) is an agent multiple-employer defined benefit healthcare plan who's assets are held by Queen Anne's County, Maryland. An employee retiring from Kent County Government on or after July 2, 2002, who has accumulated thirty (30) years of service or more will be eligible to receive the same health benefits as provided to current full-time or permanent part-time employees, whichever is applicable. In so doing, the County will pay the same percentage of premium for an employee retiring as a full-time employee as it pays to current full-time employees, and will pay the same percentage for an employee retiring as a permanent part-time employee as it pays to current permanent part-time employees. In fiscal year 2017 the County paid 100% of retiree's health, dental, and vision premiums. Additionally, the County paid 60% of retiree's dependents health premiums and 55% of retiree's dependents dental and vision premiums.

On June 9, 2009, the County Commissioners authorized the establishment of a trust to fund costs of health insurance and any other post-employment benefits provided to eligible retirees of the County. The participants of the trust include: the County, the County Commissioners of Queen Anne's County (Queen Anne's County), the Queen Anne's County Free Library and the Board of Education of Queen Anne's County.

<u>Funding Policy</u> – The county contribution includes the pay-as-you-go premiums for current retirees and the trust contribution for future retirees. Both of these figures are determined annually as part of the budget process. In fiscal year 2017 the County contributed \$190,365 (\$190,365 for pay-as-you-go premiums and \$0 to the trust). Plan members receiving benefits contributed \$23,705.

<u>Investment Policy</u> – The County Commissioners of Queen Anne's County, County Commissioners of Kent County and Participating Agencies Other Post-Employment Benefit Trust policy in regard to the allocation of invested assets is established and may be amended by the trustees. It is the responsibility of the trustees to ensure investments shall be made with the care, skill, prudence and diligence under the circumstances then prevailing, that a prudent investor would use in the administration of a trust of like character and with like aims. The County Commissioners of Queen Anne's County, County Commissioners of Kent County and Participating Agencies Other Post Employment Trust will be

diversified among horizon, liquidity needs, risk tolerance and investment objectives.

Investment Rate of Return - For the year ended June 30, 2017, the annual money-weighted rate of return on OPEB plan investments, net of the OPEB plan expense was .19%. The money-weighted rate of return on OPEB plan investments, expresses investment performance, net of the OPEB plan expense, adjusted for the changing amounts actually invested.

Net OPEB Liability as Required by GASB Statement No. 74

The components of the net OPEB liability at June 30, 2017 were as follows:

| Total OPEB liability | \$ 12,375,950 |
|--|------------------|
| Plan fiduciary net position | (157,330) |
| Net OPEB liability | \$ 12,218,620 |
| | |
| Plan fiduciary net position as a percentage of the total | 1.27% |

Plan fiduciary net position as a percentage of the total **OPEB** liability

Actuarial Assumptions - The total OPEB liability as of June 30, 2017, was determined by an actuarial valuation as of July 1, 2016, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Actuarial assumptions used in the latest actuarial valuation were:

| т ст.: | 0.000/ |
|----------------|--------|
| Inflation rate | 2.30% |

State of Maryland General and LEOPS Retirement and Pension Salary increases

System salary scale assumptions

Investment rate of return 2.30% Discount rate 3.58% Bond rate 3.58%

Healthcare cost trend rate Society of Actuaries Long Run Medical Cost Trend Model Pre-Retirement Healthy Mortality - RP-2014 Blue Collar Mortality

Mortality Table, fully generational, projected to 2014 as of 2014

using Scale MP-2014

Post-Retirement Healthy Mortality - RP-2014 Blue Collar Mortality Table, fully generational, projected to 2010 for males

and 2012 for females as of 2014 using Scale MP-2014

Disabled - RP-2014 Disabled Annuitant Mortality Table, not generational, set forward 2 years for males and 3 years for

females

An experience study has not been completed for the County Commissioners of Kent County. The demographic assumptions are based on those used by the Maryland State Retirement and Pension System for its actuarial valuation.

The long term expected rate of return on OPEB plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-range expected rate of return by weighing the expected future real rates by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2017 (see the investment policy discussion) are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|---------------|-------------------|---|
| Cash Total | 100% 100% | 2.30% |

<u>Discount Rate</u> – The discount rate used to measure the total OPEB liability was 3.58% as of June 30, 2017. The projection of cash flows used to determine the discount rate assume that the County will contribute to the trust at the same level as in recent years. Based on that assumption, the liabilities for the plan will be determined using the June 30, 2017 bond rate of 3.58% as a discount rate.

<u>Sensitivity of the net OPEB liability to changes in the discount rate</u> - the following presents the net OPEB liability of the County, as well as what the County's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.58 percent) or 1-percentage-point higher (4.58 percent) than the current discount rate:

| | 1% Decrease (2.58%) | Discount Rate (3.58%) | 1% Increase (4.58%) |
|--------------------|------------------------|-----------------------|------------------------|
| Net OPEB liability | \$ 14,970,019 | \$ 12,218,620 | \$ 10,106,836 |

Sensitivity of the net OPEB liability to changes in the health care cost trend rates - the following presents the net OPEB liability of the County, as well as what the County's net OPEB liability would be if it were calculated using health care cost trend rates that are 1-percentage-point lower (2.90 percent) or 1-percentage-point higher (4.90 percent) than the current health care cost trend rates:

| | | Health Care Cost | |
|--------------------|--------------|------------------|---------------|
| | 1% Decrease | Trend Rates | 1% Increase |
| | (2.90%) | (3.90%) | (4.90%) |
| Net OPEB liability | \$ 9,853,593 | \$ 12,218,620 | \$ 14,151,947 |

Annual OPEB Cost and Net OPEB Obligation – The County's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and the County's net OPEB obligation as of June 30 is as follows:

| | 2017 | 2016 | 2015 |
|---|--------------------|--------------|-----------|
| Annual required contribution (ARC) | \$ 1,030,000 \$ | 819,000 \$ | 764,000 |
| Less net OPEB obligation (NOO) amortization | (173,000) | (137,000) | (106,000) |
| Plus interest on net OPEB obligation (NOO) | 122,000 | 101,000 | 81,000 |
| Total cost | 979,000 | 783,000 | 739,000 |
| Contributions made | - | - | - |
| Benefits paid during fiscal year | (190,000) | (183,000) | (174,000) |
| Increase in net OPEB obligation | 789,000 | 600,000 | 565,000 |
| Net OPEB obligation - beginning of year | 3,491,200 | 2,891,200 | 2,326,200 |
| Net OPEB obligation - end of year | \$ 4,280,200 \$ | 3,491,200 \$ | 2,891,200 |
| | | | _ |
| Percentage of annual OPEB contribution | 19.4% | 23.4% | 23.5% |

<u>Funded Status and Funding Progress</u> – The funded status for the OPEB plan as of July 1 is as follows:

| For the | Unfunded | | | | | | | | | | | |
|----------|-------------------------------|----------|----|------------|----|------------|--------------|---|----|-----------|----|---------|
| Year | Actuarial Actuarial Actuarial | | | | | | | | UA | AL as a % | | |
| Ended | | Value of | | Accrued A | | Accrued | | | | Covered | of | Covered |
| June 30, | | Assets | | Liability | | Liability | Funded Ratio | | | Payroll | - | Payroll |
| 2015 | \$ | 156,561 | \$ | 8,153,000 | \$ | 7,996,439 | 1.9 | % | \$ | 8,864,273 | | 90.2% |
| 2016 | | 162,000 | | 8,654,000 | | 8,492,000 | 1.8 | % | | 9,140,701 | | 92.9% |
| 2017 | | 157,033 | | 10,627,000 | | 10,469,967 | 1.5 | % | | 9,779,935 | | 107.1% |

Actuarial Methods and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The actuarial valuations used the following methods and assumptions:

Actuarial cost method Projected unit credit

Discount rate 3.5% Salary growth 3.0%

Medical and prescription trends 5.9% decreasing gradually

Remaining amortization period 21 years
Amortization method Closed
Rate of inflation 2.2%

Component Units

Board of Education

<u>Plan Description</u> - The Kent County Public Schools Retiree Health Plan is a single-employer defined benefit healthcare Plan that is administered by the Board of Education and covers retired employees of the Board and their dependents. The Plan provides for the payment of a portion or all of the health insurance premiums for eligible retired employees depending on their position that was held and length of service. The Board of Education has the authority to establish and amend benefit provisions of the Plan. The Plan does not issue a separate, publicly available report.

<u>Funding Policy</u> – Premiums and other contributions for the Board's share of the cost of the group programs may be paid, as determined by the Board, from the assets of the Board or from the assets of the Retiree Benefit Trust

of the Board of Education of Kent County (the Trust). Premium payments for some programs may require contributions by the participants as well as the Board. The frequency and amount of such contributions shall be established from time to time by the Board. In no event will payments made by participants be excluded from their taxable income. No participant shall have any claim against, right to, or interest in the Trust. In the event that the Board or the trustee of the Trust for any reason fails to pay premiums for, or otherwise implement, the group programs for participants, the sole liability of the Board shall be limited to the amount of premiums otherwise payable. The Board shall not be responsible for any losses to participants or dependents for such failure beyond the amount of such premiums or contributions.

Plan members receiving benefits contribute a percentage of the monthly insurance premium. The Kent County Public Schools Retiree Health Plan pays 45% of the individual premium for each insured retiree who was a teacher, 55% for A&S employees. Spouses and other dependents are eligible for coverage, but the employee is responsible for the entire cost of such coverage if they retired on or after January 1, 1998. If they retired prior to December 31, 1997, the Board pays 45% of the premiums.

Annual OPEB Cost and Net OPEB Obligation – The Board's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer (ARC)*, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the Board's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the Board's net OPEB obligation to Kent County Public Schools Retiree Health Plan:

| Annual required contribution | \$ 1,928,000 |
|---|-----------------|
| Interest on net OPEB obligation | 244,000 |
| Amortization of net OPEB obligation | (344,000) |
| Annual OPEB cost (expense) | 1,828,000 |
| Benefits paid during fiscal year | (644,873) |
| Increase in net OPEB obligation | 1,183,127 |
| Net OPEB obligation - beginning of year | 6,962,243 |
| Net OPEB obligation - end of year | \$ 8,145,370 |

G. Deferred compensation plan

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all County employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are solely the property and rights of the participants. The County has no liability for losses under the plan.

Investments are managed by the plan's administrator under several different investment options, or combinations thereof. The choice of the investment option(s) is made by the participants. The County has no management control over the assets of the plan. Accordingly, the assets of the plan are not included in these financial statements per GASB Statement No. 32.

H. Risk management

The government is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County's risk financing techniques include participation in a public entity pool and the purchase of commercial insurance. For property, general, excess and environmental liability coverage, the County is a member of the Maryland Local Government Insurance Trust (LGIT). This trust is a public entity risk pool, which is owned and directed by the local governments that subscribe to its coverage's and operates under the terms of a Trust Agreement.

Subscribers to coverage provided by LGIT share the risk among participants of the pools. As a result, the County's annual premium requirements will be affected by the loss experience of the various insurance pools in which it participates. Also, the County may be subjected to additional assessments from time to time. These amounts would be recorded as expenditures when they are probable and can be reasonably estimated. Conversely, favorable performance of certain insurance pools may result in reduced premiums.

The County pays LGIT an annual premium. Claims are processed and recoveries and administrative costs are paid by LGIT. Similar to a commercial insurance carrier, recoveries are subject to deductibles and to annual aggregate/per occurrence dollar limits. No insurance settlement has exceeded the coverage to date.

The County is fully insured for workers' compensation through Chesapeake Employers Insurance Company. Employees are bonded through LGIT to limit the loss to the County in the event of employees committing acts of embezzlement or theft.

Complete financial statements can be obtained from their administrative offices:

Local Government Insurance Trust

7225 Parkway Drive Hanover, MD 21076

I. Lease obligations

1. Capital lease

Primary Government

In December, 2011, the County entered into a lease agreement with Motorola Solutions, Inc. for the financing of 700MHz radios for the new public safety communication system, which was placed into service in July 2012. This equipment is valued at \$2,800,000 and has a ten-year estimated useful life. This year \$280,000 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and therefore, has been recorded at the present value of its future minimum lease payments as of the inception date.

The assets acquired though this capital lease are as follows:

| | Governmental Activities | | ss-Type vities | Total | | |
|--------------------------------|-------------------------|-------------|-------------------|-------|-------------|--|
| Asset: | | | | | | |
| Machinery and Equipment | \$ | 2,800,000 | \$ - | \$ | 2,800,000 | |
| Less: Accumulated Depreciation | | (1,400,000) | - | | (1,400,000) | |
| Total | \$ | 1,400,000 | \$ - | \$ | 1,400,000 | |

The future minimum lease obligation and the net present value of these minimum lease payments as of June 30, 2017, were as follows:

| | Governmental | | Business-Type | | |
|---|--------------|-----------|---------------|------------|-----------------|
| Fiscal Year Ending June 30, | Activities | | | Activities | Total |
| 2018 | \$ | 325,071 | \$ | - | \$ 325,071 |
| 2019 | | 325,071 | | - | 325,071 |
| 2020 | | 325,071 | | - | 325,071 |
| 2021 | | 325,071 | | - | 325,071 |
| 2022 | | 325,071 | | - | 325,071 |
| Total minimum lease payments | | 1,625,355 | | - | 1,625,355 |
| Less: amount representing interest | | (128,388) | | - | (128,388) |
| Present value of minimum lease payments | \$ | 1,496,967 | \$ | - | \$ 1,496,967 |
| | | | | | |

2. Operating lease

Primary Government

The County leases buildings for the library, state's attorney, election office, family and community partnerships of Kent County and health department operations. It also leases office and technology equipment. Total costs for operating leases were approximately \$394,762 for the year ended June 30, 2017. Future minimum lease payments under significant non-cancelable operating leases are as follows:

| Fiscal Year Ending June 30, | Amount | | |
|-----------------------------|--------|---------|--|
| | | | |
| 2018 | \$ | 387,158 | |
| 2019 | | 183,900 | |
| 2020 | | 50,635 | |
| 2021 | | 34,936 | |
| Total | \$ | 656,629 | |

J. Short-term debt

Primary Government

The County maintains a line of credit of \$3,500,000 from a local financial institution with an interest rate of 60% of the prime rate. The outstanding balance at June 30, 2017, was \$0.

Component Units

Public Library

During 2017, the Library renewed a \$25,000 line of credit agreement with PNC Bank for operating needs. The agreement is for a period of one year and is subject to renewal. There has been no activity on the credit line during the year and the balance remains at \$0.

K. Long-term liabilities

General Obligation Bonds, Notes, Other Post-Employment Benefits, Compensated Absences, Landfill Liability

The County issues general obligation bonds and notes payable to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. General obligation bonds are direct obligations and pledge the full faith and credit of the County. These bonds generally are issued as serial bonds with equal amounts of principal maturing each year with maturities that range from 5 to 40 years. General obligation bonds and notes payable outstanding at June 30, 2017, are as follows:

Governmental Activities:

| Description | Issue Date | Original Borrowing | Interest Rate | Maturity Date | Outstanding 6/30/2017 |
|---|----------------------|-----------------------|------------------|----------------------|--------------------------------------|
| General obligation bonds | | | | | |

| | \$ 13,962,009 | \$ 7,380,727 | \$ (2,031,390) | \$ 19,311,346 |

A portion of the interest on loans through the Build America Bond program obtained from United States Department of Agriculture Rural Development under the American Recovery and Reinvestment Act of 2009 (ARRA) is reimbursed to the County.

Legal Debt Margin

In accordance with Section 3-9.1 of Chapter 3 of the Code of Public Local Laws of Kent County, Maryland, the County's annual debt financing cannot exceed twenty million dollars in any single fiscal year. During fiscal year 2017, the County issued debt of \$1,639,000.

Changes in Long-Term Liabilities

Changes in the government's long-term liabilities for the year ended June 30, 2017, are as follows:

| | Balance | | D 1 : | Balance | Due Within |
|--|---------------|-------------|----------------|---------------|--------------|
| | July 1, 2016 | Additions | Reductions | June 30, 2017 | One Year |
| Governmental Activities: | | | | | |
| General obligation bonds | \$ 10,049,518 | \$ - | \$ (988,521) | \$ 9,060,997 | \$ 1,030,248 |

Funding Sources for Other Non-Debt Related Liabilities

Compensated absences liabilities of governmental activities are liquidated by the governmental fund that incurred the personnel cost.

Net pension liabilities, net other post-employment benefit obligations, and landfill liabilities are all liquidated with general fund resources.

Component Units

Board of Education

A summary of long-term liability activity for the year ended June 30, 2017 is as follows:

| Balance | | | | | | Balance | | Due Within | |
|--|----|-------------|--------------|----|-----------|---------|--------------|------------|---------|
| | Jı | ıly 1, 2016 | Additions | R | eductions | Jι | ine 30, 2017 | | ne Year |

L. Fund balance

Minimum fund balance policy. While the County does not have a formal fund balance policy, it strives to maintain an unassigned general fund balance of at least 7.5% of general fund expenditures to provide fiscal stability when economic downturns and other unexpected events occur. The County's ending unassigned fund balance has been above its target of 7.5% since fiscal year 2006.

Stabilization arrangement. The County maintains a revenue stabilization reserve ("rainy day fund") in the general fund. Resources equivalent to 0.05% of total general fund revenues are reserved annually. Expenditure of the amounts in the revenue stabilization reserve may occur at the direction of the County Commissioners. Use of these funds are not expected to occur routinely and are intended to be a resource in times of revenue shortfalls. At June 30, 2017, the stabilization reserve is \$185,229.

M. Interfund receivables and payables

Interfund receivables and payables are usually used by the County to cover temporary cash deficits in individual funds until grant or similar resources are received. Occasionally, these receivables and payables are used in lieu of short-term external borrowing for capital projects. The composition of interfund balances as of June 30, 2017, is as follows:

| | Due From | | | Due To | | |
|---|----------|-----------|----|-----------|--|--|
| | | All Funds | | All Funds | | |
| General fund | \$ | 4,086,350 | \$ | 5,105 | | |
| Non-major governmental funds | | - | | 3,894,736 | | |
| Enterprise fund - water and wastewater services | | 5,105 | | 191,614 | | |
| Total | \$ | 4,091,455 | \$ | 4,091,455 | | |

N. Interfund transfers

Interfund transfers represent a transfer of resources from one fund to another without expectation of repayment. Usually these transfers are undertaken to enable the receiving entity to provide services that the government has determined to be in the best interest of the County. The composition of interfund transfers for the year ended June 30, 2017, is as follows:

| | Transfers | Transfers | | |
|---|-----------------|-------------------|--|--|
| | In | Out | | |
| General fund | \$ 50,278 | \$ (4,375,949) | | |
| Capital projects fund | 3,420,197 | - | | |
| Non-major governmental funds | 80,444 | - | | |
| Enterprise fund - water and wastewater services | 875,308 | (27,900) | | |
| Enterprise fund - bayside landing | _ | (22,378) | | |
| Total | \$ 4,426,227 | \$ (4,426,227) | | |

Significant interfund transfers in 2017 included:

- \$3,420,197 transfer from the general fund to the capital projects fund for the installation of a fiber network throughout Kent County, the stormwater project at Nicholson, the football field repairs at Kent County High School, the County's share of several Project Open Space projects at Worton Park and the Kent County Public Library project.
- \$875,308 transfer from the general fund to the water and wastewater services fund to subsidize the cost of operations.

O. Landfill closure and post-closure care costs

Between 1987 and 1992 the County operated Nicholson landfill. This 45.8 acre site was the County's primary collection facility. In May 1992, the County stopped collecting trash at Nicholson landfill. A two foot cap of cover material, sediment ponds, water testing wells, and methane gas vents were completed d0ppuring the fall of 1996 in accordance with federal and state regulations. The County is required to provide post-closure maintenance to the landfill for 30 years subsequent to its capping. The County has paid \$2,277,958 in post closure costs in the last twenty-one years and estimates the cost to provide post closure care for the remaining nine years at \$679,137. This expenditure is budgeted and funded with general fund resources each year.

P. Joint ventures

The County Commissioners, in conjunction with Talbot, Caroline, and Queen Anne's Counties, created the Midshore Regional Landfill in 1991. Each of the counties in turn, will host a landfill site that will be owned and operated by Maryland Environmental Service to serve the four county area for a twenty year period. The first landfill site was located in Talbot County and stopped accepting waste as of December, 2010. The second landfill site was opened January 2011, in Caroline County. Each county is required to set aside sufficient land to construct a landfill within their borders. The agreement expires when the last of the four landfills is closed.

Each county is required to place its municipal waste in the landfill. The facility is also available to commercial waste disposal firms at the same price per ton as charged to the county governments. Kent County paid \$142,778 in tipping fees to the facility during fiscal year 2017.

The participating counties are contingently liable for closure costs of the landfills. The County's potential share of the liability is \$2,403,420. Maryland Environmental Service is currently putting into place a plan to fund all closure costs from the revenues of the facilities. The project has sufficient revenues and reserves at this time to lead the County to believe that no expenditure of its funds will be required. Audited financial statements for the project can be obtained from:

Maryland Environmental Service

259 Najoles Road Millersville, MD 21108.

Q. Agreements

The Gratitude sub-district is owned and operated by the Town of Rock Hall, Maryland. The County Water and Wastewater Department borrowed money from the United States Department of Agriculture Rural Development to fund this project for the Town. The County Water and Wastewater Department invoices the Town of Rock Hall, Maryland semi-annually for the debt payments that it has made on this loan.

The County Water and Wastewater Department has also entered into agreements with the towns of Chestertown, Millington, and Rock Hall, Maryland whereby the towns provide water to West Millington and Edesville sub-districts, and accept wastewater from the Quaker Neck, West Millington, and Piney Neck, Spring Cove/Green Lane and Edesville sub-districts, respectively. The County Department maintains and operates the water lines and sewer collection systems.

R. Contingencies

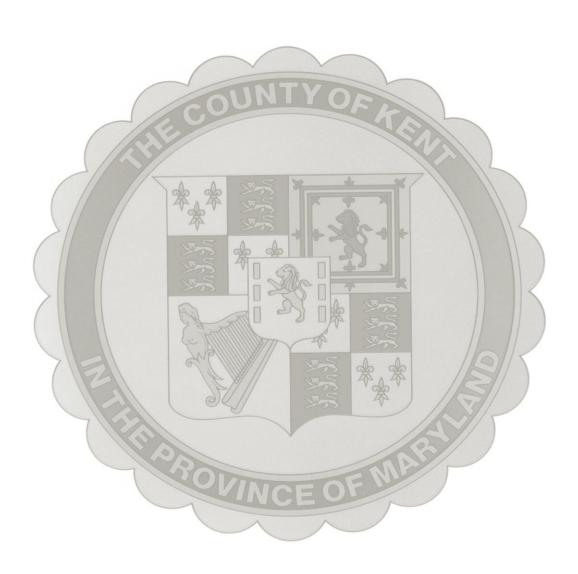

Primary Government

The County and its component units are recipients of various federal and state grant and/or loan programs, which are governed by various rules and regulations of grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies. If the County has not complied with the rules and regulations governing the programs, refunds of money received may be required and the collectability of any related receivable may be impaired.

The County has received Community Development Block Grant Program funds for the purpose of rehabilitating homes of low/moderate income households. Upon the completion of the housing improvements, the homeowners enter into

a deferred loan agreement with the County whereby the homeowners agree to repay the County for the value of the improvements their homes received if they sell their homes within a specified period of time. As of June 30, 2017, the value of all the deferred loan agreements was \$271,809.43.

Statistical Section

The Statistical Section fully incorporates information mandated by Governmental Accounting Standards Board (GASB) Statement No. 44, *Economic Condition Reporting: The Statistical Section*. This section presents detailed information for the primary government in the following areas, which provide a context for understanding what the information in the Financial Section says about the County's overall financial health:

FINANCIAL TRENDS - Information to help the reader understand how the County's financial performance and well-being have changed over time.

REVENUE CAPACITY - Information to help the reader assess the County's most significant local revenue sources.

DEBT CAPACITY – Information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

DEMOGRAPHIC AND ECONOMIC INFORMATION – Indicator to help the reader understand the environment within which the County's financial activities take place.

OPERATING INFORMATION – Service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Many of the tables cover more than two fiscal years and present data from outside the accounting records. Therefore, the Statistical Section is unaudited.

^{*}Accounting Standards require that net assets be reported in three components in the financial statements: net investment in capital assets; restricted; and unrestricted. Net assets are considered restricted when (1) an external party, such as the state or federal government, places a restriction on how the resources may be used, or (2) enabling legislation is enacted by the County
