

Kent County standardizes its grinder pump sewer system around the Environment One (E/One) pumps to provide ease of maintenance and common replacement parts. Kent County sewer customers with grinder pump units now have an opportunity to purchase decorative rock covers from E/One. These are the only covers approved for use on E/One grinder pump units. If customers are interested in purchasing a cover, please contact us at 410-778-3287 for pricing and installation.

Decorative Rocks for Grinder Pump Stations

“What can I use to cover up the grinder pump lid in my yard?”

Homeowners have asked for years what they can do to conceal the lids in their yards. Service technicians still need access. An easy solution? A decorative rock.

Lightweight but durable, this decorative rock is a fast, easy and affordable way to disguise a grinder pump station.

FEATURES AND BENEFITS

- Attractive, natural contours and colors allow the rock to blend in with almost any landscape design
- Molded polyethylene will not fade or crack
- Factory approved built-in vents allow for proper pressure switch operation on the pump
- Available in four colors and two sizes (36" x 36" x 9" and 34" x 32" x 15")
- Anchor stakes keep the rock in place, but remove easily for service

Easily disguise a grinder pump with a decorative rock.

Many homeowners ask how they can cover up their grinder pump lids. E/One's decorative rocks hide the lids, but still provide easy access for service.
